Highlights in 2005–2006

UBC's School of Community and Regional Planning (SCARP) is one of Canada's largest and oldest graduate planning programs, with a 50-year heritage in education, capacity building, research, and service. The school is focused on participatory planning for environmental, social, and economic sustainability. SCARP has the equivalent of 15 faculty and a masters and doctoral teaching program with over a 150 students registered in degree programs each year. SCARP is also home to the Centre for Human Settlements, which leads major collaborative capacity building and research programs focused on community-based planning for poverty reduction in Brazil, Vietnam, and other Asian countries. It also has a suite of "sustainability collaboratories", research laboratories focusing on information and communication technologies, transportation, urban design, and disaster preparedness planning.

Highlights

Dr. Leonie Sandercock was awarded the 2005 Paul Davidoff Award for the best book in the planning field addressing Davidoff's ideals of justice and equity by the American Collegiate Schools of Planning.

Professor Peter Boothroyd was awarded \$2.33 million from CIDA for a four-year project on New Public Consortia for Metropolitan Governance, which supports Canadian and Brazilian university, government and civil society organizations working in partnership with five Brazilian cities.

SCARP received the 2005-2006 Peter Larkin Award, which is granted to a UBC graduate program for contributions to student development in honour of Dr. Larkin's commitment and passion for teaching and graduate education.

Over the past year, 117 Master's and 20 Doctoral students enrolled in UBC's program in Community and Regional Planning (SCARP). 9 Master's and 9 Doctoral students received fellowship support. During this period 25 master's and 1 doctoral student graduated from the program.

A revised master's curriculum, incorporating innovations that capitalize on the expertise of the new faculty appointments over the last couple of years, was implemented at the beginning of the year.

Vision

Major attention will focus on the School's contributions to the World Urban Forum (WUF) and associated events being held in Vancouver in June 2006. Planners for Tomorrow (P4T) is a web based, year-long dialogue among students from planning schools around the world, culminating in a three-day Forum in Vancouver and creating recommendations on the knowledge, skills and attitudes critical for the sustainability planner of tomorrow for delivery into WUF

<http://www.plannersfortomorrow.ca> Faculty and students are organizing sessions and presenting papers and videos for the World Planners Congress and World Urban Forum as well as several

other associated conferences including the national meetings for architects and landscape architects.

At the end of June Tony Dorsey stepped down after seven years as the Director of SCARP. The new Director of the School is Dr. Leonie Sandercock.

Graduate Award Winners 2005–2006

Catherine Jacobsen

Canadian Institute of Planners (CIP) Award for Academic Excellence including a book prize and certificate bearing the CIP seal. The CIP award is granted to the student member who achieves the highest academic standing over the length of the program.

Gina Mitteco

Real Estate Foundation award in Community & Regional Planning. A \$1,000 award is offered by the Real Estate Foundation to graduate student in SCARP who exhibits excellence in academic, professional and community activities in community planning and/or real property development.

Krista Munro

H. Peter Oberlander \$1,200 Prize and Medal. The award honours H. Peter Oberlander, the founding Director of the School of Community & Regional Planning and subsequently the founding Director of the Centre for Human Settlements.

Brian Patterson

American Institute of Planners prize including a \$1,200 prize from SCARP. The American Institute of Certified Planners Prize is awarded to the most outstanding graduating student in Community & Regional Planning.

Krista Petterson & Darren Cole

The Emergence Preparedness Conference award for \$3650 is offered to graduate students concentrating in Emergency Planning. Recipients will be invited to the annual Emergency Preparedness Conference and may be encouraged to present their work at a subsequent meeting. The award is made on the nomination of a Selection Committee, in consultation with the Faculty of Graduate Studies.

Sheng Zhong

Brahm Wiesman, Director of UBC's School of Community and Regional Planning from 1978 to 1987, initiated the first major overseas development projects of SCARP and the Centre for Human Settlements. As a result of his work, CHS was designated a Centre of Excellence by the Canadian International Development Agency in 1990. Madge Wiesman, with support from Brahm's friends, colleagues and former students, has endowed a scholarship in his memory. The Brahm Wiesman Memorial Scholarship for \$1700, will be awarded annually to a SCARP student in the Master's or Doctoral program.

School of Community and Regional Planning Scholarships

Four scholarships totaling \$1,000 each are awarded to students entering the second year of their Master's degree at SCARP and are awarded for academic excellence. The Scholarships were established in 1990 from interest received on major grants the School received in the 1960's from the Richard King Mellon Charitable Trust Grant and the Donnor Canadian Foundation Grant. In 2005-2006, the scholarships were given to Elise Finnigan, Mark Reismeyer, Beverly Suderman and Daniel Freeman.

MASTERS PROGRAM 2005-2006

SCARP’s Master’s Program constitutes the core of its academic and professional teaching program. As one of the best-known and comprehensive Planning programs in North America we received 153 applications for 2005-2006 as compared to 187 formal applications for 2004–2005, 218 in 2003-2004 and 141 in 2002–2003. We continued to improve our successful program completion rate, graduating 25 students in the 2005–2006 academic year.

For September 2005 the applicants accepting our offer had undergraduate degrees in:		Forty-eight applicants were admitted and 29 accepted the offer. The mean age was 27 (8 were under 24 years old). Fourteen males and fifteen females accepted our offer.

Newsbytes: Newsletter of the SCARP Community

The first issue of SCARP's on-line newsletter was published in the Fall of 2000. Newsletters are published, in November, January and March of each year. The newsletter brings students, alumni, staff, faculty and other members of the SCARP community up-to-date on news and events in the School.

Centre for Human Settlements

The Centre for Human Settlements (CHS) takes as its mission “to advance knowledge of the dynamics of, and effective methods for, democratically planning the sustainable development of settlements.” The interdisciplinary research and capacity-building programs at CHS address a multiplicity of complex community development issues. In collaboration with academic, governmental and NGO partners, CHS advances knowledge through participatory action research, field tests of proposed planning methods, institutional capacity building, and mutual learning.

CHS has an established record of research in planning for sustainable development that explores local and global paths towards achieving it. In 1991, CHS was designated an International Centre of Excellence in International Development by the Canadian International Development Agency (CIDA). Since then, the Centre has been awarded four other major CIDA grants; funding from the United Nations Development Program (UNDP) for a training program on planning for sustainability in Hanoi, Vietnam; and funding from the Social Sciences and Humanities Research Council (SSHRC) to initiate an international gender and development network.

Under the CHS umbrella, the Disaster Preparedness Resource Centre (DPRC) has been successful in obtaining funding for a variety of research and training projects and conferences. Faculty Associates have also been active in individual research projects funded by a broad spectrum of national and international funding agencies. Current projects are summarized below.

Canada-Indonesia Symposium - The New Shape of Government in Indonesia and Implications for Bilateral Relations

Project Leader: Michael Leaf

Project supported by a grant for \$26,500 from the Asia Pacific Initiatives Conference Fund, Foreign Affairs Canada

On October 12, 2004, the Centre for Southeast Asia Research hosted a one-day symposium on the future of Canada-Indonesia bilateral relations in collaboration with Simon Fraser University International and the Indonesian Consulate in Vancouver, and with financial support from Foreign Affairs Canada. The intent of the symposium was to promote dialogue on the changing nature of Indonesian society and economic development in light of ongoing changes in the Indonesian government, in particular the recently completed cycle of elections resulting in the presidency of Susilo Bambang Yudhoyono, and to generate new ideas regarding the nature of Canadian engagement in Indonesia. The symposium was held at the SFU Harbour Centre campus and was attended by over 70 participants in addition to the presenters.

Chaired by CSEAR Director Michael Leaf, the symposium was led off by two keynote addresses by Randolph Mank, Canadian Ambassador to Indonesia, who reviewed current trends in Indonesian democratization and development, emphasizing Canada’s role and interests in particular, and Eki Syachrudin, Indonesian Ambassador to Canada, who discussed current political developments relative to the broad sweep of political and social change in Indonesia since the time of independence in 1949. This introductory session was followed by three panels,

covering: domestic, regional and international security, including questions of political reform, national unity and the war on terrorism; the outlook for the economy and current factors shaping the investment climate; and social development, human rights and the environment, with specific attention to Canadian aid priorities. Speakers on these panels included: Dr. Rizal Mallarangeng (Director of the Freedom Institute), Prof. Dr. Azyumardi Azra (Rector, Universitas Islam Negeri), and Dr. Jacques Bertrand (University of Toronto) on the security panel, which was moderated by Dr. Abidin Kusno (UBC); Dr. Umar Juoro (Center for Information and Development Studies), and Greg Elms (Canada-Indonesia Business Development Office) on the investment panel, moderated by Chris Dagg (SFU); and Dr. Amanda Katili-Niode (Syarifa Foundation), Rustam Ibrahim (YAPPIKA), and Dr. Roy Culpeper (North-South Institute) on the social development panel, moderated by Michael Leaf. The final panel, chaired by Dr. Irman Lanti of the Habibie Center, brought back all of the speakers in a discussion of what recommendations could be put forth regarding specific Canadian initiatives across all three of these broad themes. Ideas from the presentations and the ensuing discussions will be compiled in a brief summary document focusing on the symposium's recommendations, which was followed by the publication of the symposium proceedings.

The Asian Urban Laboratory

Project Leaders: Michael Leaf and Abidin Kusno (Institute of Asian Research)
Project supported by grants totaling \$135,000 from the Canada Foundation for Innovation and the BC Knowledge Development Fund, 2005.

The Asian Urban Laboratory (AUL) is now under development at the IAR with support from the Canada Foundation for Innovation and the BC Knowledge Development Fund. This new facility, under the direction of Abidin Kusno of the Centre for Southeast Asia Research, will be dedicated to promoting collaborative research among local, national, and international scholars working on both historical and contemporary aspects of urbanism and urban change in Asia. Establishing the AUL within the IAR will thus provide critical support for the work of Dr. Kusno and various other members of the University in two regards; first, through the digitization and utilization of existing graphic materials on Asian urbanism, establishing a Digital Image Library of materials on Asian cities and urban change, and second, through the development of an Asian Urban Database which will draw together statistical, cartographic, and textual materials focused on selected Asian cities. Taken together, these two components will provide a core resource for promoting collaborative, interdisciplinary research on urban change throughout the region, thus helping to complement and strengthen UBC's position as Canada's world-leading academic institution for the study of Asian urbanization. Building upon the interdisciplinarity of the IAR itself, the facility would thus establish a unique national research capability that would attract scholars from various disciplines across the Social Sciences and the Humanities to the study of cities in Asia.

Challenges of the Agrarian Transition in Southeast Asia

Project Leader: Rodolphe DeKoninck, University of Montreal
Co-investigators: Michael Leaf, et al.

Project supported by: Social Sciences and Humanities Research Council, Major Collaborative Research Initiatives, for \$2.5 million, from 2005 – 2010.

The Social Sciences and Humanities Research Council of Canada has awarded a Major Collaborative Research Initiative (MCRI) grant for the study of “The Challenges of the Agrarian Transition in Southeast Asia” (or ChATSEA). This five-year, \$2.5 million program will critically examine the ongoing societal transformations in Southeast Asia from primarily non-urban populations dependent upon agricultural production and organized through rural social structures, to predominantly urbanized, industrialized and market-based societies. The consortium of researchers involved in this program is led by Rodolphe De Koninck of the University of Montreal, and includes Michael Leaf, Director of the UBC Centre for Southeast Asia Research, along with others from Canada, Europe, and Australia and collaborators from Indonesia, Malaysia, the Philippines, Thailand, and Vietnam. The work of this program is organized around six themes: 1) agricultural intensification and territorial expansion; 2) increasing integration of production into market-based systems of exchange; 3) accelerating processes of urbanization and industrialization; 4) heightened population mobility both within and across national borders; 5) intensification of regulation, as new forms of private, state and supra-state power are developed and formalized to govern agricultural production and exchange relationships; 6) processes of environmental change that modify the relationship between society and nature to reflect new human impacts and new valuations of resources. Dr. Leaf will act as the process coordinator for the urbanization and industrialization theme, thereby creating links between the ChATSEA program and other UBC initiatives regarding Asian urbanization.

Informality and Governance in Peri-urban Southeast Asia: A Study of the Jakarta and Hanoi Metropolitan Regions

Project Leader: Michael Leaf

Project supported by: Social Sciences and Humanities Research Council, Standard Research Grant, for \$92,646, from 2006 – 2008.

Indonesia and Vietnam, like other developing countries in Southeast Asia, are struggling to cope with the effects of extremely rapid urbanization. This is a phenomenon associated with each country’s urban transition - that is, the historic shift from a society defined by a rural majority population to one in which urban populations predominate. Particularly problematic are the peri-urban areas adjacent to the major cities, as these are zones of hyper-rapid change, characterized by the influx of rural migrant populations, the outward movement of suburbanizing urban dwellers, and unprecedented local administrative challenges. Erstwhile rural villages must quickly adapt to being part of the city, with all the demands for urban infrastructure, services, land use, and environmental controls that this implies.

The basic processes by which peri-urbanization occurs are shaped by a mix of both formal (state-regulated) and informal (non-regulated) means, that in practice often subvert the expressed goals of state-defined urban planning. The research is therefore based upon a framework of regulatory informality, focusing on the complex interactions between state and non-state actors in the shaping of peri-urban change. Regulatory issues which unfold from processes of peri-urbanization and which will be examined in this research include: (a) land use and building

construction, (b) security of property rights, (c) delivery of infrastructure and services, and (d) environmental protection.

The proposed research is expected to contribute to knowledge in two ways. First, in regard to policy implications, the research will seek to understand the bases of localized regulatory practices outside of direct, or formal, state control, raising the possibility of articulating new means of regulation in the peri-urbanizing regions of two major Southeast Asian cities. Second, in more theoretical terms, the research will contribute to the recent resurgence of interest in the study of urban informality and informalization in market-driven development. Dissemination of results will be undertaken through the presentation and publication of scholarly papers in both Asia and North America, and through a book project bringing together the Hanoi and Jakarta case studies with others in the region.

Bilateral Symposium on Canada-Indonesia Relations: Cooperation in a Time of Change (Jakarta and Banda Aceh, Indonesia, 8-10 December 2005)

Project Leader: Michael Leaf

Project supported by a grant for \$22,500 from Foreign Affairs Canada

The 2005 Bilateral Symposium on Canada-Indonesia Relations was designed to build upon the momentum of the 2004 Symposium by bringing together representatives from government, the private sector, non-governmental organizations, and academia to examine the current state of bilateral relations, particularly in light of major events over the past year. The single most momentous event in this respect was the Indian Ocean Earthquake and Tsunami of 26 December 2004 that destroyed much of the coastal areas of the Aceh Province and caused the deaths of over 170,000 people and the displacement of another 500,000. From the perspective of bilateral relations, one major effect of this destruction has been the tremendous efforts at cooperation between Indonesia and the international community for relief, recovery, and reconstruction in the affected areas. A second consequential outcome has been the cessation of fighting between Indonesian Armed Forces (TNI) and the separatist Free Aceh Movement (GAM), and the beginning of a still-fragile peace process.

For these reasons, it was decided to organize the 2005 Symposium in two parts, with a day of presentations and discussions in Jakarta (Dec 8), followed by a second series of presentations and discussions in Banda Aceh (Dec 10). The intention of organizing this as a two-part symposium was to be able to engage analysts and policy-makers in Jakarta as well as to gather the direct input of local officials, local and international reconstruction workers, and other observers in Banda Aceh.

The Jakarta component of the symposium was held at the Indonesian Department of Foreign Affairs (Jalan Taman Pejambon 6) and organized by the Habibie Center in collaboration with the Indonesian Department of Foreign Affairs and with the cooperation of the Canadian Embassy in Jakarta, the UBC Centre for Southeast Asia Research and Simon Fraser University International. The event was structured as a roundtable discussion, with a core group of approximately eighteen Indonesian and Canadian participants and an additional audience of nearly fifty,

representing government agencies, non-governmental organizations, academic institutions, the private sector and the media. Presentations and discussions were organized around a series of three panels addressing respectively: the political and security environment; the business and investment climate; and development cooperation, with each panel lead by a pair of presentations by Indonesian and Canadian representatives (see symposium agenda in addendum for details). These panels were preceded by welcoming comments, including those of Canadian Ambassador Randolph Mank, who reviewed the progress toward addressing the previous year's recommendations, and a keynote address by Mr. N. T. Dammen, who spoke on behalf of Dr. Nur Hassan Wirajuda, Indonesian Minister of Foreign Affairs. Core roundtable participants and presenters included six women and nine members of the larger audience were women out of a core group of approximately eighteen Indonesian and Canadian participants and an additional audience of nearly fifty

The portion of the symposium held in Banda Aceh was organized by the Islamic State University (Institut Agama Islam Negeri – IAIN) in collaboration with the Canadian Embassy in Jakarta, and was held at the Ar-Raniry campus of IAIN in Banda Aceh. In addition to serving the basic goals of the project, the Banda Aceh component of the symposium had the added benefits of directly involving faculty and students from a local university in Banda Aceh, and providing a public forum for the assessment of post-tsunami reconstruction efforts and peace-building in Aceh. Response to the symposium was enthusiastic, with a total of over 140 attendees, including more than twenty non-Indonesian representatives of multilateral, bilateral or non-governmental organizations involved in reconstruction efforts. More than 30 of the total attendees were women, and three of the fifteen core presenters were women. Following introductory remarks and two keynote addresses, giving, respectively, an overview of the Indonesian government's efforts at rehabilitation and reconstruction and an overview of CIDA programming to address reconstruction, the main presentations of the day were structured into two panels. The first focused on challenges and lessons learned as efforts move into the longer-term reconstruction phase, while the second panel addressed political and developmental aspects related to reconstruction, specifically dealing with the challenges of peace-building in Aceh after so many years of conflict. Each panel consisted of four presentations by Indonesians and Canadians, representing governmental, non-governmental and academic perspectives.

The Promises And Limits Of International Criminal Justice: The “Extraordinary Chambers” In Cambodia: A Roundtable Discussion (2 – 4, February 2006)

Project Leader: Michael Leaf

Project supported by grants for \$10,000 each from Foreign Affairs Canada and the Canadian Consortium on Human Security

Thirty years after the accession to power of a regime that saw the untimely deaths of some 1.7 million of a population of seven million in less than four years, Cambodians have not yet had an accounting of the culpability of its leaders. In 1997, the Royal Government of Cambodia called upon the United Nations to assist in setting up a tribunal, and agreement was finally reached in 2003 for the establishment of the “Extraordinary Chambers for the period of Democratic

Kampuchea” (ECDK), involving Cambodian and international judges and prosecutors. The objectives of the ECDK, aside from the obvious need to mete out justice for the atrocities of the Democratic Kampuchea (Khmer Rouge) regime, can be said to be (a) to promote national reconciliation after 35 years of conflict; (b) to advance the acceptance in Cambodia of the rule of law; (c) to build competence among the Cambodian judiciary; and (d) to satisfy the Cambodian population that there is finally to be accountability for the “auto-genocide” perpetrated by the murderous regime.

The objective of this roundtable conference was to review the history of efforts to bring the Khmer Rouge leadership to justice for crimes against humanity between April 1975 and January 1979, and to analyze steps taken toward a hybrid “Cambodian model” of a national tribunal with the participation of international judges and prosecutors. The roundtable is also intended to plant the seeds for a conference or series of conferences to be held in Cambodia dealing with the ECDK in the context of other international post-conflict methods of resolution. Roundtable presentations and discussions examined the effects of the Cambodian process on human security in a fragile state, particularly in stabilizing the peace, preventing further conflict in the region, promoting good governance and accountability, and encouraging acceptance of judicial reform and international norms respecting the rule of law. The roundtable looked specifically at the legal framework of the process, the context and implications for the political situation in Cambodia and social development objectives, and examined in particular at the role of international assistance vis-à-vis “ownership” of the process.

The roundtable consisted of two parts: the first, a series of public sessions, beginning with a keynote address and discussions on the evening of Thursday, Feb 2, and continuing with a full day of panel presentations and roundtable discussions on Friday, Feb 3; and the second, a closed session on Saturday, Feb 4, for roundtable participants to develop ideas for further project development based upon the outcomes of the previous days’ discussions. The public portion of the event consisted of thirteen presentations by invited roundtable participants and extensive discussions between participants and audience members (see Addendum for Conference Program). In addition to the 19 members of the roundtable (including presenters, moderators and discussants), at least 39 audience members attended all or part of the public presentations.

SCARP Supervisor: Penny Gurstein, Agency Advisor: G. David Ramslie
Agency: City of Vancouver - Central Area Planning

Robert Bateman, 2006S

Topic: Gospel Rock Neighbourhood Plan

SCARP Supervisor: Michael Larice, Agency Advisor: Robert Barrs
Agency: Holland Barrs Planning Group

Benjamin Campbell, 2006S

Topic: Incorporating Local Knowledge into the Monitoring Framework for the Strategic Forest Management Plan - Southwest Yukon

SCARP Supervisor: Tim McDaniels, Agency Advisor: Aynslie Ogden
Agency: Department of Energy, Mines & Resources, Government of Yukon

Marilyn Chiang, 2006S

Topic: "Re-Thinking the Shophouse"

SCARP Supervisor: Penny Gurstein, Agency Advisor: Kathleen Kern
Agency: The City of Vancouver

Daniel Freeman, 2006S

Topic: Policy Research in Support of the South of Fraser Area Transit Plan

SCARP Supervisor: Michael Larice, Agency Advisor: Graeme Masterton
Agency: Translink

Lisa Hallgren, 2005W

Topic: Promoting Participatory Budgeting in Canadian Municipalities: Building Community & Government Capacity for Deliberative Local Governance

SCARP Supervisor: Peter Boothroyd, Agency Advisor: David Fairey
Agency: Trade Union Research Bureau

Adam Hunt, 2006S

Topic: Ear to the Ground - Participatory Video Project

SCARP Supervisor: Leonie Sandercock, Agency Advisor: Jonathan Frantz
Agency: Ear to the Ground

Samya Lutz, 2006S

Topic: Long Range Planning on the Urban Fringe with the City of Bellingham, Washington, USA

SCARP Supervisor: Tim McDaniels, Agency Advisor: Pat Carman
Agency: City of Bellingham, Planning Department

Aaron Moguin, 2005W

Topic: Voluntary Negotiated Benefits: Engaging Stakeholder Involvement in Redevelopment Projects in the City of Vancouver

SCARP Supervisor: Michael Larice, Agency Advisor: Scot Hein
Agency: City of Vancouver

Dara Parker, 2005W

Topic: Planning with Youth in Lesotho

SCARP Supervisor: Nora Angeles, Agency Advisor: Phelane Phomane

Agency: Lesotho National Olympic Committee

Nicole Ronalds, 2005W

Topic: Building a Basin-wide Water Cause

SCARP Supervisor: Tony Dorcey, Agency Advisor: Kindy Gosal

Agency: Columbia Basin Trust

Maria Stanborough, 2005W

Topic: Multi-media Communication Strategies for Immigrant Services Societies Host Program

SCARP Supervisor: Leonie Sandercock, Agency Advisor: Jerry Wu

Agency: Immigrant Services Society of BC

Justine Starke, 2006S

Topic: West End Neighbourhood Profile with the City of Vancouver

SCARP Supervisor: Tony Dorcey, Agency Advisor: Dave Ramslie

Agency: City of Vancouver, Central Area Planning

Kathleen Sunderland, 2006S

Topic: City of Vancouver, Planning Department

SCARP Supervisor: Tom Hutton, Agency Advisor: Kathleen Kern

Agency: The City of Vancouver

Reena Thomas, 2005W

Topic: Knowledge Transfer Project on Affordable Housing and Homelessness

SCARP Supervisor: Tom Hutton, Agency Advisor: Sarah Slack

Agency: Social Planning & Research Council of BC

Claire Wilkinson, 2006S

Topic: Promoting Urban Youth Development Policies and Strategies in East Africa

SCARP Supervisor: Penny Gurstein, Agency Advisor: Anantha Krishnan

Agency: UN Habitat - Partners & Youth Division - Nairobi

Karen Wong, 2005W

Topic: Planning for Communities: Density Bonusing and the Provision of Public Amenities in the City of Burnaby

SCARP Supervisor: Tom Hutton, Agency Advisor: John Foster

Agency: City of Burnaby

Taylor Zeeg, 2006S

Topic: Community Action on Energy Efficiency

SCARP Supervisor: Tom Hutton, Agency Advisor: Jim Vanderwal

Agency: Fraser Basin Council

Appendix C: Teaching Activities

Leonora Angeles

Visiting Lectures

University of the Philippines (POLS 350 – Politics of Feminism and Transnationalism) – April-May 2005

Special Accomplishments in Teaching

Meseret Taye, my MA Planning advisee received a \$12,000 IDRC Evaluation Research Award in December 2005.

Rita Dhamoon, PhD Political Science, received a post-doctoral fellowship at the University of Alberta.

Sirijit Sunanta received full scholarship from the Royal Thai Government.

Anthony Dorcey

Special Accomplishments in Teaching

Taught 4 courses; graduated 1 doctoral and 6 masters students; supervised an additional 3 doctoral and 11 masters students

Penelope Gurstein

Visiting Lectures

“Planning, Class and Urban Planning: The Crisis of Inclusivity and Affordability.” SCARP Faculty Lecture Series, UBC, January 2006 (with Howard Rotberg).

“Digital Public Space and Participatory Processes.” EDCI 565: Diversity, Difference, and the “Digital Divide”: Media and the Possibilities for Democratic Public Pedagogies, UBC Faculty of Education, October 2005.

“Planners for Tomorrow.” Plan 540 – Omnibus Course, SCARP, October 2005.

Special Accomplishments in Teaching

Silvia Vilches, my PhD Student received both a Michael Smith Senior Trainee Award and a SSHRC Fellowship

Michael Leaf

Visiting Lectures

Visiting Faculty, University of Cincinnati Sustainable Development Group, "Plan for the Future of Santorini: The Cultural Center of the Eastern Mediterranean," Santorini, Greece, July 21st – 28th, 2005.

Timothy McDaniels

Special Accomplishments in Teaching

Supervising a large number of students, including orphaned "legacy" students for RMES
Fostered a complete rebuilding of trust among RMES students regarding IRES administration
Created IRES management committee on which students have direct representation

William Rees

Visiting Lectures

"An Alternative View of Globalization." Lecture to Urban Geography Course, SFU Harbour Centre. 7 Sept 2005.

"Is Efficiency Efficient?" Seminar with Green Buildings Course, UBC Northern Way Campus, 20 October 2005.

"Hazards of Globalization." Lecture to student-organized course on sustainable development, UBC, 25 Jan 2006.

"Higher Education: Impeding Sustainability?" Contribution to open joint seminar with visiting Prof David Orr (Oberlin College) on the role of universities in achieving sustainable development. UBC 12 January 2006.

"Participatory Action for Sustainability." SFU-Semester in Dialogue, Harbour Centre, 16 January 2006.

"Eco-Footprints of Agriculture." Agro-Ecology, UBC Faculty of Agricultural Sciences, 2 February 2006.

"Unsustainability through the lens of human nature and eco-footprint analysis" Lecture/Seminar session to special graduate course on Material Flows and Life Cycle Analysis, UBC Institute for Resources, Environment and Sustainability, UBC/AERL, 15 March 2006.

"Human Ecological Dysfunction: A Pox on Biodiversity." Lecture to Conservation Biology course, UBC Faculty of Science, 21 March 2006.

Leonie Sandercock

Visiting Lectures

UBC Dept of Architecture Studio on Downtown Vancouver, Sept 2005

Special Accomplishments in Teaching or Supervision

Graduated two PhD students this year (Tanja Winkler and Matti Siemiatycki).

Completed the documentary that built on the work of 15 Masters students.

Presentation to Collingwood Neighbourhood House in June 2005 of the students' short films.
